This will go into effect in January. If your bill is does not reflect this information, please call Louis Canter at 407.6005607 or email him at brotherlouiscanter@gmail.com. It would be best to work through Louis because the customer service representatives of Republics are not aware of the contract we have with their company. Many times, people call and receive different answers each time they call Republics. Thank you for trusting us with this matter.
